

## **The New Ford Tourneo Custom**

Wheelchair accessible vehicles have just been taken to the next level! The stylish Tourneo Custom is a cut above the competition in terms of its features, looks and drivability - with more space than ever for wheelchair users!

With the New Tourneo Custom, you'll enjoy an exceptional on-board experience wherever you sit. Flexible rear seats offer many possible seat/wheelchair configurations. And with the L2 long wheelbase version, you'll get even more luggage space and space for two wheelchairs.

As for comfort and convenience, premium fabrics and trims, more stowage options and car-like levels of craftsmanship ensure satisfying journeys for driver and passengers alike.

With features as standard such as front and rear air conditioning, heated seats, DAB radio, cruise control and a heated front windscreen the Tourneo Custom will leave you wanting for nothing.

Our Parent company- Lateral Design Ltd has spent a lot of time ensuring that our Ford Tourneo Custom conversion is not like anything else available.

With particular attention paid to the quality and materials used, you can clearly see that our Custom has been designed and built to obtain a superior quality conversion without compromise.

The wheelchair channel of the Ford Custom is trimmed with high quality carpet and stainless steel trim to blend with the original vehicle. This also helps to create a quiet atmosphere to easily allow conversation between front and rear passengers.

In most cases the wheelchair user will sit in row 2, between the two rear seats to allow complete integration for the wheelchair passenger. The rear seats are the originals too – no more reduced size seats for passengers, just total comfort for all.

As a further option it is possible to fit 2 additional tip and fold rear seats, and a further wheelchair position in row 3, thereby enabling the Ford Custom to have a maximum capacity of 9 people including 2 wheelchair users if the front bench seat option is selected.

Our light weight, single piece ‘whale tail’ ramp enables a wheelchair user to enter the vehicle from a broader angle, making short work of situations where room behind the vehicle is limited. Inside, LED low mounted strips provide ample lighting - making entering and exiting the Custom as safe as possible.

<b>Dimensions</b>	
Ramp Length	1241mm / 49”
Ramp width (minimum)	785mm / 31”
Max width between row 2 seats	653mm / 25 1/2”
Max wheelchair channel length	2730mm / 107”
Max entry height	1600mm / 63”
Max seated height	1440mm / 56 1/2”
